Day 2: Wildlife, Hot Springs, A Birds-Eye-View, and Northern Lights

Whitehorse is full of historic landmarks and interesting sights. On a city tour, you will visit the SS Klondike National Historic Site, the Old Log Church, and the Log Cabin Skyscraper. You will also have a chance to stroll down Main Street and visit the Yukon Wildlife Preserve. The SS Klondike was one of the last great paddlewheelers that sailed the Yukon River system. The Old Log Church is the oldest building in Whitehorse. The Log Cabin Skyscraper is a three-story tower made completely out of logs. Main Street is perfect for strolling and shopping with its shops, galleries, and cafes. The Yukon Wildlife Preserve is home to many of the Yukon's large mammal species, including elk, moose, mule deer, caribou, Dall's sheep, mountain goats, bison, and musk-oxen. You will have a chance to see all of these animals in their natural surroundings. After a long day of hiking in the preserve, you'll be ready to relax in the Eclipse Nordic Hot Springs. The natural hot springs are the perfect way to unwind, and you'll be able to enjoy a beautiful summer mountain setting.

Later in the evening, you'll head back out on the road to see the stunning Northern Lights. You can choose to relax in sheltered comfort or under the stars by a warm fire at one of our aurora viewing locations. Either way, you're sure to have an unforgettable experience.

Overnight in Whitehorse, YT.

Day 3 – Day free. Evening, Northern Lights Viewing Tour

Today is a free day for optional sightseeing and touring. In the summer/fall season, you have the option to experience the beautiful scenery of Kluane National Park or the stunning vista of White Pass on the way to Skagway on one of the available day tours. Later in the evening, we set out once more to the AuroraCentre where we'll seek the sight of northern lights. Please consult the front desk for more information on tour times and pricing. We hope you have a wonderful day exploring everything this amazing area has to offer!

There are many other optional tours that we are able to offer. Please check with us for details of the several options available to you. Your tour departs at 11:30 PM and you will return to hotel around 3:30 AM.

Overnight in Whitehorse, YT.

Day 4 – Day free.

Today, your day is free for optional sightseeing and touring. On free days you can choose from optional winter sightseeing, shopping, and touring in and around the capital.

Overnight in Whitehorse, YT.

Day 5 – End of your tour.

Today is the end of your Best Value Aurora Viewing Package. We will transfer you to the airport for your flight back home.

You have enjoyed stunning views of the Northern Lights, as well as several other exciting activities. We hope you have had a great time and we look forward to seeing you again soon.

Check with your cell service provider to find out if your phone will work here. Satellite phone networks are accessible across the Yukon and satellite phones can be rented in Whitehorse.
- **Is the Yukon always chilly?** - Temperature in the Yukon fluctuates, but warm and sunny weather in Summer (mid-May to September) with temperatures often in the 20s (°C) is not uncommon. Daylight hours are longer, too. In some areas the midnight sun shines all night long. Winters can be chilly (as you may have heard), but dress appropriately and you'll hardly even notice.
- **Are there bears in the Yukon?** – Yes. The Yukon is home to healthy populations of grizzly and black bears. We suggest that you read our wilderness travel tips.
- **Where is the best place to see aurora? And what time is best?** - To see aurora, you need clear and dark sky. During very large auroral events, the aurora may be seen throughout the US and Europe, but these events are rare. During an extreme event in 1958, aurora was reported to be seen from Mexico City. During average activity levels, auroral displays will be overhead at high northern or southern latitudes. Places like Whitehorse, Yukon; Yellowknife, NWT; Gillam, Manitoba; the southern tip of Greenland; Reykjavik, Iceland; Tromsø, Norway; and the northern coast of Siberia all offer a good chance to view the aurora overhead. In North Dakota, Michigan, Quebec, and central Scandinavia, you might be able to see aurora on the northern horizon when activity picks up a little. In the southern hemisphere the aurora must be fairly active before it can be seen from places other than Antarctica. Hobart, Tasmania, and the southern tip of New Zealand have about the same chance of seeing aurora as Vancouver, BC, South Dakota, Michigan, Scotland, or St. Petersburg. Fairly strong auroral activity is required for aurora viewing in those locations.

- **What is the best time to see Aurora Borealis?** - The best time to watch for aurora is around midnight, but aurora occurs throughout the night. There are very few places on Earth where one can see aurora during the day.

Since clear sky and darkness are essential to see aurora, the best time is dictated by the weather, and by the sunrise and sunset times. The moon is also very bright and should be considered when deciding on a period to travel for the purpose of auroral observation. You might see aurora from dusk to dawn throughout the night. The chances are higher for the three or four hours around midnight.

- **Is aurora borealis viewing best with a moon or no moon?** - We like moonlight because it lights up the foreground and makes the sky a deep blue instead of pitch-black like with no moon. We watch the lunar phase very carefully to allow for best light compositions for photography.
- **What is the best month for Aurora Borealis Viewing?** - In northern regions like the Yukon, the best time to view the aurora is from late August to mid-April. During the summer months the night skies are not dark enough to see the aurora borealis even at times when the solar wind activity is strong. In midwinter the temperatures may fall to the minus 40-degree range, and it is important to wear appropriate winter clothing (please see "winter clothing packages") to enjoy the displays.
- **How to photograph the Northern Lights?** - For starters set the camera on a tripod, adjust the ISO setting up to 800 or 1600, set the f-stop wide open (lowest number like f2.8) and start bracketing the exposure times. Try 5 seconds, 10 seconds, and 20 seconds. If the picture is still black and underexposed, then try 30 seconds and keep raising the ISO until something shows up on your LCD monitor.
- **Can I take Aurora photos with a cellphone?** - Basically, it is very difficult to take night photos with a cellphone. To capture the Northern lights, you will need to position your camera on a tripod to make sure you don't have any motion while you take a photo. We recommend you bring a camera which has a manual mode, which most medium-priced cameras have nowadays.
- **How long do the northern lights last?** - Anywhere from 10 minutes to all night long, depending on the magnitude of the incoming solar wind. "Coronal holes" consistently produce nice auroras, but big solar flares and CMEs-coronal mass ejections are responsible for global-wide aurora displays...the BIG shows!
- **Are there any rental camera services?** - We do not offer any rental cameras, but we offer a photo service and rental tripod. If you do not want to bring big camera, our Aurora guides will take your photo with northern lights, and you can choose to purchase it if you like it.
- **Does it have to be COLD to see the northern lights?** - No! It is a myth that the northern lights happen only when it's cold. They happen year-round and since there is more darkness to see them in the winter people associate the cold winter with the auroras. August and September are a great time to see the Aurora while wearing a T-shirt and shorts!
- **Winter Clothing - Should I wear rental winter gear for every tour?** - It is not mandatory, but we recommend it. December to April, the temperature drops to around -20 to -25°C, so our

winter gear helps you to enjoy any tour comfortably and safe. We strongly recommend wearing our rental winter gear during snow shoeing, ice fishing, and Aurora Viewing tours.

- **What is a famous food in Whitehorse?** - Many restaurants serve local food like Arctic Char which comes from the arctic area. Also, meats like bison and reindeer are served as part of traditional meals. In the very far north you can also expect to taste traditional indigenous meals.
- **What time should I arrive to Whitehorse?** - If you are planning to join the Aurora Viewing Tour, we recommend arriving at the Whitehorse Airport before 8pm, then you have enough time to prepare for the tour.
- **How do we get to Whitehorse, YT?** - There are many ways to get to the Yukon, but flying is the easiest. You can catch regular flights with Air North, Yukon's Airline, from Vancouver, Calgary, Edmonton, Ottawa, Kelowna, Victoria and Yellowknife. Or, if you're coming from further abroad, there are a variety of convenient flights arriving in the Yukon via other major airlines such as Air Canada, WestJet, and Condor. After you've fastened your seatbelt, it's time to share a few stories with your neighbour and one of Air North's famous warm cookies.
- **Will I see wildlife on these tours?** - **Yes.** There is a chance of seeing wildlife on the tour and we often spot animals, however we do not guarantee seeing wildlife on any of our tours. Our guides have a lot of knowledge about the animals within the park and can fill you in about them if you see any wildlife or if you have any questions.
- **Wild Animals – Is it safe to approach wild animals? Is it safe to touch them if they behave friendly?** **ABSOLUTELY NO.** Neither should you get out of your vehicle to photograph them even if they seem to be calm and even friendly.
- **Would I need a credit card to check-in at confirmed hotels, lodges, and inns?** Yes. Clients are required to present a Credit Card in their name at check-in. Hotel will typically take an authorization on the credit card for between \$500 and \$750 per stay to cover room incidentals and any damage to property. The authorization will auto-cancel within 72 hours of check-out less any incidentals or other charges relating to the room.
- **What is the hotel check-in and check-out times?**
 - Check-in: 4 PM
 - Check-out: 11 AMEarly Check-in and Late-Checkouts require prior approval by the hotel. Additional charges, possibly an additional night charge will apply.
- **What is your policy should our flight be cancelled and therefore we are unable to join the tour?** DMCi Inc. is responsible only for services booked through us. Therefore, your inability to travel or join the tour on time due any reasons including but not limited to delayed/cancelled flights, denied boarding, delayed/cancelled visas, health conditions, death in the family, etc. are not reasons for a refund or a substitution tour. If you are unable to join the tour or fail to join the tour on time, no refund/substitution tour will be provided. All such circumstances should be covered by your Travel Insurance.
