Day 2: Wildlife Viewing, Hot Springs & Northern Lights Viewing at the Aurora center

Your Whitehorse adventure begins with a visit to the SS Klondike National Historic Site. Among the last of the great paddlewheelers that plied the Yukon River system until the 1950's, this vessel is now a popular tourist attraction. Next, you'll visit the Old Log Church. The oldest building in Whitehorse, this unique structure is definitely worth a photo or two. Afterwards, you'll explore the Log Cabin Skyscraper; a three story tower made completely out of logs. After taking in all these top sights, Main Street is the perfect place to stroll and do some shopping. With its shops galleries and café's, you're sure to find something to take home with you. So don't forget your camera and comfortable walking shoes; you're in for a treat! Our trip to the Yukon Wildlife Preserve will be an opportunity to see many of the Yukon's large mammal species in their natural surroundings. The preserve is home to elk, moose, mule deer, caribou, Dall's sheep, mountain goats, bison, and musk-ox. We will also have the opportunity to relax in the natural hot springs at Eclipse Nordic Hot Springs.

In the evening, we will be back on the road again, this time to seek views of the stunning Northern Lights. Relax in sheltered comfort, or under the starry sky beside a warm fire at one of our tailor-made aurora viewing locations.

Overnight in Whitehorse, YT.

Day 3 – Hiking Tour & Northern Lights Viewing at the Aurora center

Join us on a hiking tour to see some of the most breathtaking views of the Yukon's landscape and scenery. We'll hike a well-established trail along the Miles Canyon overlooking one of the famous Yukon River. The panoramic views let you enjoy the vast open space of the Yukon.

Later in the evening, we set out once more to the AuroraCentre where we'll seek the sight of northern lights.

Overnight in Whitehorse, YT.

Day 4 – Day free.

Today, your day is free for optional sightseeing and touring. On free days you can choose from optional winter sightseeing, shopping, and touring in and around the capital.

Overnight in Whitehorse, YT.

Day 5 – End of your tour.

Today is the end of your Best Value Aurora Viewing Package. We will transfer you to the airport for your flight back home.

You have enjoyed stunning views of the Northern Lights, as well as several other exciting activities. We hope you have had a great time and we look forward to seeing you again soon.

End of your Basic Value Aurora Viewing Tour +Snowshoeing, Wildlife & Hot springs.

You are provided necessary briefing on each day of the tour so you can participate safely if you follow the guide and the guidelines and briefings provided by the operator/guide.
- **Wi-Fi Signal - How's the signal?** - 4G smartphone cell coverage is available in all communities, but not in between. Check with your cell service provider to find out if your phone will work here. Satellite phone networks are accessible across the Yukon and satellite phones can be rented in Whitehorse.
- **Is the Yukon always chilly?** - Temperature in the Yukon fluctuates, but warm and sunny weather in Summer (mid-May to September) with temperatures often in the 20s (°C) is not uncommon. Daylight hours are longer, too. In some areas the midnight sun shines all night long. Winters can be chilly (as you may have heard), but dress appropriately and you'll hardly even notice.
- **Are there bears in the Yukon?** – Yes. The Yukon is home to healthy populations of grizzly and black bears. We suggest that you read our wilderness travel tips.
- **Where is the best place to see aurora? And what time is best?** - To see aurora, you need clear and dark sky. During very large auroral events, the aurora may be seen throughout the US and Europe, but these events are rare. During an extreme event in 1958, aurora was reported to be seen from Mexico City. During average activity levels, auroral displays will be overhead at high northern or southern latitudes. Places like Whitehorse, Yukon; Yellowknife, NWT; Gillam, Manitoba; the southern tip of Greenland; Reykjavik, Iceland; Tromsø, Norway; and the northern coast of Siberia all offer a good chance to view the aurora overhead. In North Dakota, Michigan, Quebec, and central Scandinavia, you might be able to see aurora on the northern horizon when activity picks up a little. In the southern hemisphere the aurora must be fairly active before it can be seen from places other than Antarctica. Hobart, Tasmania, and the southern tip of New Zealand have about the same chance of seeing aurora as Vancouver, BC, South Dakota, Michigan, Scotland, or St. Petersburg. Fairly strong auroral activity is required for aurora viewing in those locations.

- **What is the best time to see Aurora Borealis?** - The best time to watch for aurora is around midnight, but aurora occurs throughout the night. There are very few places on Earth where one can see aurora during the day.

Since clear sky and darkness are essential to see aurora, the best time is dictated by the weather, and by the sunrise and sunset times. The moon is also very bright and should be considered when deciding on a period to travel for the purpose of auroral observation. You might see aurora from dusk to dawn throughout the night. The chances are higher for the three or four hours around midnight.

- **Is aurora borealis viewing best with a moon or no moon?** - We like moonlight because it lights up the foreground and makes the sky a deep blue instead of pitch-black like with no moon. We watch the lunar phase very carefully to allow for best light compositions for photography.
- **What is the best month for Aurora Borealis Viewing?** - In northern regions like the Yukon, the best time to view the aurora is from late August to mid-April. During the summer months the night skies are not dark enough to see the aurora borealis even at times when the solar wind activity is strong. In midwinter the temperatures may fall to the minus 40-degree range, and it is important to wear appropriate winter clothing (please see "winter clothing packages") to enjoy the displays.
- **How to photograph the Northern Lights?** - For starters set the camera on a tripod, adjust the ISO setting up to 800 or 1600, set the f-stop wide open (lowest number like f2.8) and start bracketing the exposure times. Try 5 seconds, 10 seconds, and 20 seconds. If the picture is still black and underexposed, then try 30 seconds and keep raising the ISO until something shows up on your LCD monitor.
- **Can I take Aurora photos with a cellphone?** - Basically, it is very difficult to take night photos with a cellphone. To capture the Northern lights, you will need to position your camera on a tripod to make sure you don't have any motion while you take a photo. We recommend you bring a camera which has a manual mode, which most medium-priced cameras have nowadays.
- **How long do the northern lights last?** - Anywhere from 10 minutes to all night long, depending on the magnitude of the incoming solar wind. "Coronal holes" consistently produce nice auroras, but big solar flares and CMEs-coronal mass ejections are responsible for global-wide aurora displays...the BIG shows!
- **Are there any rental camera services?** - We do not offer any rental cameras, but we offer a photo service and rental tripod. If you do not want to bring big camera, our Aurora guides will take your photo with northern lights, and you can choose to purchase it if you like it.
- **Does it have to be COLD to see the northern lights?** - No! It is a myth that the northern lights happen only when it's cold. They happen year-round and since there is more darkness to see them in the winter people associate the cold winter with the auroras. August and September are a great time to see the Aurora while wearing a T-shirt and shorts!
- **Winter Clothing - Should I wear rental winter gear for every tour?** - It is not mandatory, but we recommend it. December to April, the temperature drops to around -20 to -25°C, so our

winter gear helps you to enjoy any tour comfortably and safe. We strongly recommend wearing our rental winter gear during snow shoeing, ice fishing, and Aurora Viewing tours.

- **What is a famous food in Whitehorse?** - Many restaurants serve local food like Arctic Char which comes from the arctic area. Also, meats like bison and reindeer are served as part of traditional meals. In the very far north you can also expect to taste traditional indigenous meals.
- **What time should I arrive to Whitehorse?** - If you are planning to join the Aurora Viewing Tour, we recommend arriving at the Whitehorse Airport before 8pm, then you have enough time to prepare for the tour.
- **How do we get to Whitehorse, YT?** - There are many ways to get to the Yukon, but flying is the easiest. You can catch regular flights with Air North, Yukon's Airline, from Vancouver, Calgary, Edmonton, Ottawa, Kelowna, Victoria and Yellowknife. Or, if you're coming from further abroad, there are a variety of convenient flights arriving in the Yukon via other major airlines such as Air Canada, WestJet, and Condor. After you've fastened your seatbelt, it's time to share a few stories with your neighbour and one of Air North's famous warm cookies.
- **Will I see wildlife on these tours?** - **Yes.** There is a chance of seeing wildlife on the tour and we often spot animals, however we do not guarantee seeing wildlife on any of our tours. Our guides have a lot of knowledge about the animals within the park and can fill you in about them if you see any wildlife or if you have any questions.
- **Wild Animals – Is it safe to approach wild animals? Is it safe to touch them if they behave friendly?** **ABSOLUTELY NO.** Neither should you get out of your vehicle to photograph them even if they seem to be calm and even friendly.
- **Would I need a credit card to check-in at confirmed hotels, lodges, and inns?** Yes. Clients are required to present a Credit Card in their name at check-in. Hotel will typically take an authorization on the credit card for between \$500 and \$750 per stay to cover room incidentals and any damage to property. The authorization will auto-cancel within 72 hours of check-out less any incidentals or other charges relating to the room.
- **What is the hotel check-in and check-out times?**
 - Check-in: 4 PM
 - Check-out: 11 AMEarly Check-in and Late-Checkouts require prior approval by the hotel. Additional charges, possibly an additional night charge will apply.
- **What is your policy should our flight be cancelled and therefore we are unable to join the tour?** DMCi Inc. is responsible only for services booked through us. Therefore, your inability to travel or join the tour on time due any reasons including but not limited to delayed/cancelled flights, denied boarding, delayed/cancelled visas, health conditions, death in the family, etc. are not reasons for a refund or a substitution tour. If you are unable to join the tour or fail to join the tour on time, no refund/substitution tour will be provided. All such circumstances should be covered by your Travel Insurance.
