Famous for its panoramic beauty, The Fairmont Banff Springs Golf Course is situated a mile high in the Canadian Rockies in Banff National Park, with stunning views in every direction. Amateurs and professionals alike are constantly surprised by the challenges this course throws at the player. The optical illusions created by the towering mountains around may deceive the eye of even the most skilled player.

Designed by world-renowned golf architect Stanley Thompson in 1928, the original 18-hole course was later complemented by the construction of an adjoining 9 holes, designed by Cornish and Robinson, and opened in 1989; thereby completing this championship layout.
