Every excursion is led by a local guide and accompanied by professional team member who is always available to assist.

We have taken steps to make the sign-up process as simple as possible. Guests receive a link to a personalized online cruise portal 90 days prior to embarkation date. a stateroom that best accommodates their specific need. Advance notification allows for the crew to prepare for guests' arrival.

All vessels in the Cruise Lines fleet have designated accessible staterooms available. These rooms are based on need and are booked on a "first come, first served" basis. American Riverboats, Patriot Class, Coastal Cats, and Constellation Class vessels are equipped with two modern elevators that can accommodate mobility devices. The Cruise Lines vessels are designed to operate on shallow waters and dock at small facilities. The crew is trained in the use of boarding transfer chairs and guests are transferred from the dock to the vessel in the transfer chair.

Passengers must bring and be solely responsible for any necessary items related to all medical conditions or mobility challenges. Guests who are unable to care for their basic needs (e.g. dressing, eating, moving from wheelchair to seating and/or from seating to wheelchair or standing and attending safety drills) must have a capable traveling companion.

Itineraries, schedules, routes, ships, and staterooms are always subject to change at any time without notice due to weather conditions, availability of docks, shoaling, river conditions, operation of locks, mechanicals, or any other reason. The times and dates of departure and arrival are also subject to change. Some Intracoastal Waterway cruises may travel coastwise at times. The Mississippi River between St. Paul and St. Louis has particularly fickle river conditions which may require itinerary modification.
