DM-SS-YVR-CAPBRIDGE

The main attraction of this park set in rainforest landscape, is the 450 feet (137 meters) long bridge suspended 230 feet (70 meters) above the Capilano River. Millions of daring visitors have taken a walk across this suspension bridge since its opening in 1889.

The Treetops Adventure consists of a series of suspension bridges attached to 30-ton, 250-year-old Douglas-firs. Viewing platforms are attached to a special tree collar system that uses no nails or bolts that would harm the trees and allows visitors to walk freely between the viewing platforms. The bridges go as high as 110 feet above the forest floor and offer spectacular views.

Reaching out over the misty expanse of evergreen foliage, the Cliffwalk follows the granite walls of the Capilano River. A labyrinth-like series of narrow cantilevered bridges, stairs, and platforms through rainforest vegetation, the Cliffwalk dares visitors to tread out over the open canyon below to get a birds-eye view of the canyon and the river running below. Of course, the Cliffwalk is not meant for the weakhearted.

**Special Event:** Canyon Lights – Must see – November 19, 2022 – January 22, 2023

Never miss the Canyon Lights. This is a special winter festival at Capilano Bridge that runs from November 19, 2022, to January 22, 2023. During the Canyon Lights Festival, hundreds of thousands of lights are strung throughout the park, highlighting the wonder and beauty of this special place even more. The entire park, the Suspension Bridge, Treetops and the Cliffwalk, the rainforest and the canyon are transformed into a magical world of festive lights and visual enchantment.
